## MSM PA PROGRAM

### Continue a Powerful Tradition of Medical Excellence

As demand for healthcare professionals continues to skyrocket throughout Georgia, The Morehouse School of Medicine (MSM) Physician Assistant (PA) program faces this challenge head-on.

Our PA program fosters mentorship and diversity within the medical workforce while increasing healthcare access in Georgia's underserved rural and urban communities.

Preceptors serve as a bridge to transfer their knowledge and guide PA students through real-life patient interactions. Together, preceptors work with students to teach them effective communication skills, evaluate symptoms, develop a diagnosis, and form a treatment plan.

## Benefits of Joining the MSM PA Program

### All PALS (PA preceptors) Receive

**A \$2000 STIPEND**  
in appreciation for your contribution & dedication to our PA students.

**MSM EMAIL ACCOUNT**

**GEORGIA STATE TAX CREDIT**  
up to \$6,000

**ACCESS TO MSM LIBRARY RESOURCES**  
including peer-reviewed electronic journals

**MSM FACULTY APPOINTMENT**  
as clinical adjunct faculty

**CONTINUING MEDICAL EDUCATION**  
(AAPA Category 1) credits

## PALS PROGRAM

Physician Assistant  
Leader Superstars (PALS)

### Continue the Tradition of Sharing Knowledge

The Morehouse School of Medicine is the proud recipient of a \$1.5 million HRSA Federal Grant for Primary Care Training and Enhancement. This grant enables our PA Leadership (PALS) program to incentivize physicians and practicing physician assistants. Preceptors joining the program receive numerous benefits, including a \$2000 stipend.

Minorities represent less than 5% of certified PAs in the United States. The PALS program aims to increase diversity and inclusivity within the medical profession by actively recruiting underrepresented minorities and veterans from rural and underserved areas.

As a PALS preceptor, you will have the opportunity to share your knowledge and mentor a new generation of PA students in a clinical setting.

PALS preceptors will also combine behavioral health and primary care through MAT-Waiver Training, which uses medication, counseling, and skills development to improve treatment outcomes for opioid patients.

Our goal is to inspire PA students to enter primary care practices in underserved communities and improve service to these vulnerable groups.

## OUR FOCUS

### The MSM PALS Program Provides

#### LEADERSHIP OPPORTUNITIES

Mentor and train students to effectively communicate with and treat patients in a clinical setting.

#### MAT TRAINING

Gain new skills to address the opioid crisis using targeted pharmaceutical and psychosocial therapies as part of patient treatment.

#### WELLNESS PLANNING

Ensure the next generation of PAs contribute to the health and well-being of underserved communities.
